

Connect to eduroam Wi-Fi: macOS

Follow the below steps to connect to eduroam

Click the Apple icon at the top left corner of your screen and go to System Settings > Network > Wi-Fi

Click the wi-fi icon and select eduroam.

If your device is onboarded and connected to Company Portal for WIMR, the eduroam will connect automatically.

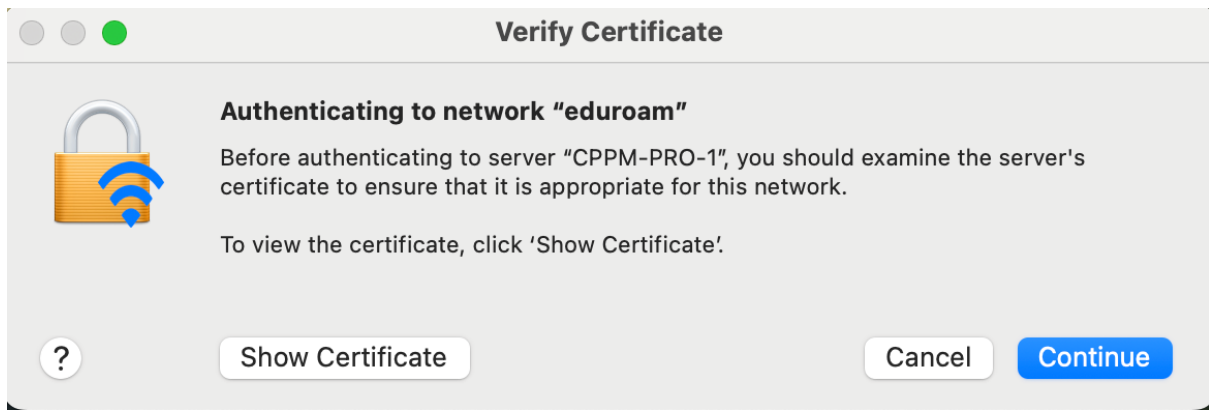

If it's a personal device and not connected to company portal then follow the below steps:

- Click on eduroam to connect.
- Enter your WIMR email address as your Username, and enter your WIMR password. Then click OK.

The first time you connect to the eduroam network, you'll need to verify the server. To authenticate, click Show Certificate.

Select Trust, change the setting to Always trust, then select Continue.

It will now be connected to eduroam

From now on, macOS will remember these settings every time you connect to eduroam.
