

Connect to eduroam wi-fi: iPhone and iPad

Check for a previous connection before starting

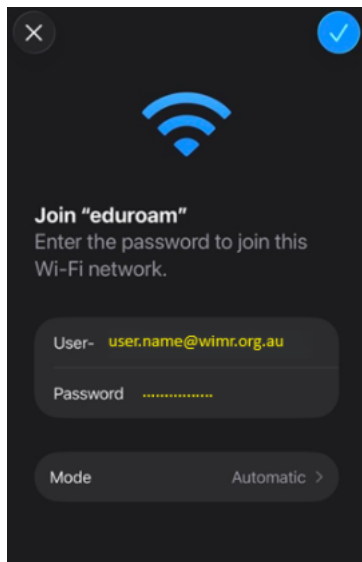

If you were previously connected to eduroam, you'll need to follow these two steps to remove the connection before reconnecting.

1. Go to *Wi-Fi settings*.
2. Select the information icon for eduroam and select Forget.

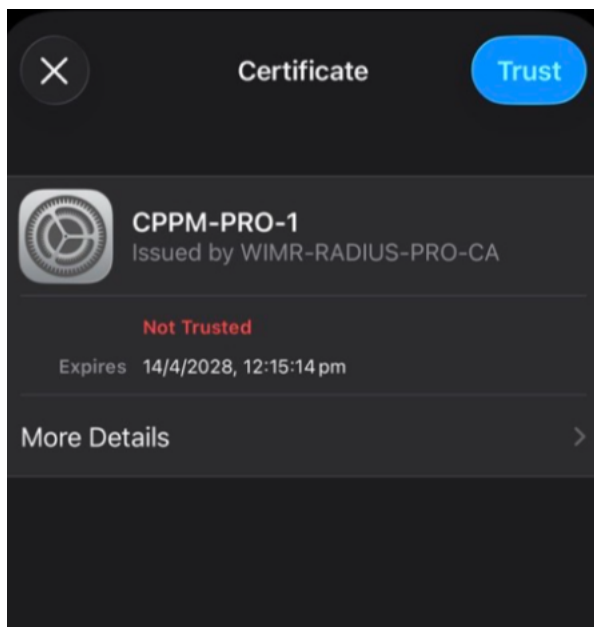

Connect and reconnect

1. From the Home screen, tap **Settings**, then **Wi-Fi**.
2. Tap **eduroam**.

On the Certificate pop-up tap **Trust**.

A tick next to eduroam network will appear confirming you're connected to the eduroam wireless service.
